

## Preservation

**Primary Goal:** Protect, preserve and restore important or unique natural and cultural resource values

**Primary Activities:** Observation, interpretation, and education

**Typical Facilities:** Minimal -- only those needed to protect or observe resources

## Conservation

**Primary Goal:** Protect, restore and manage natural and cultural resource values while accommodating lower intensity recreation

**Primary Activities:** Lower intensity camping, boating, trail use, etc. in natural setting

**Typical Facilities:** Less developed facilities -- e.g., trails, trailheads, small parking areas, small boat launch facilities, camping

## Administration

**Primary Goal:** Operation and maintenance of the unit, including recreation, flood control, water supply, and power generation functions

**Primary Activities:** Administrative and operational activities

**Typical Facilities:** Dams, hydro-electric generating equipment, administration buildings, corporation yards, parking, etc.

## Recreation -- Medium Intensity

**Primary Goal:** Providing for outdoor recreation while protecting and managing resources

**Primary Activities:** Full range of aquatic and terrestrial recreation

**Typical Facilities:** Moderate facility development in support of active and passive recreation – e.g., trails, trailheads, parking, launch facilities, camping, picnic areas, turf areas, etc.

## Recreation -- High Intensity

**Primary Goal:** Providing outdoor recreation opportunities and activities in areas that can withstand high intensity recreation use

**Primary Activities:** Full range of aquatic and terrestrial recreation

**Typical Facilities:** Full range of facilities, including highly major facilities such as marinas, visitor centers, aquatic centers, concessions, in addition to trails, camping, picnic areas, turf areas, etc.
